5. Extraordinary Index Adjustments

Upon the occurrence of an Equity Index Extraordinary Event in relation to one or several Equity Indices included in the Core Index which has a material effect on the relevant Equity Index or the level of the Equity Index, the

Index Sponsor will make any such adjustments to the Index as are necessary to account for the economic effect of the Equity Index Extraordinary Event on the Index and to preserve, to the extent possible, the economic profile of the Index prior to the occurrence of the Equity Index Extraordinary Event in accordance with the following provisions (each an "Equity Index Adjustment"). The Index Sponsor will decide in its reasonable discretion (*billiges Ermessen*, as contemplated in § 315 of the German Civil Code (BGB)) whether an Equity Index Extraordinary Event has occurred and whether such Equity Index Extraordinary Event has a material effect on the relevant Equity Index.

An Equity Index Adjustment may result in:

- (i) the relevant Equity Index being replaced by another index (a "Equity Index Replacement") which is economically comparable to the relevant Equity Index

and/or

- (ii) increases or decreases of specified variables and values in the calculation of the Index taking into account
 - a. the effect of the Equity Index Extraordinary Event on the level of the respective Equity Index;
 - b. the diluting or concentrative effect of an Equity Index Extraordinary Event on the theoretical value of the relevant Equity Index; or
 - c. any cash compensation or other compensation in connection with a Equity Index Replacement;

and/or

- (iii) consequential amendments to the Equity Index related provisions of the terms of the Index that are required to fully reflect the consequences of the Equity Index Replacement.
 - (a) Equity Index Adjustments will correspond to the adjustments to option or futures contracts relating to the relevant Equity Index made by the relevant Futures Exchange (an "Equity Index Futures Exchange Adjustment").
 - (i) The Index Sponsor will not be required to make adjustments to the Index by reference to Equity Index Futures Exchange Adjustments, in cases where:
 - (aa) the Equity Index Futures Exchange Adjustments would result in

	<p>economically irrelevant adjustments to the Index; the Index Sponsor will decide in its reasonable discretion (<i>billiges Ermessen</i> as contemplated in § 315 of the German Civil Code (BGB)) whether this is the case;</p> <p>(bb) the Equity Index Futures Exchange Adjustments violate the principles of good faith or would result in adjustments of the Index contrary to the principle to preserve the economic profile of the Index prior to the occurrence the Equity Index Extraordinary Event and to compensate for the economic effect thereof on the level of the relevant Equity Index; the Index Sponsor will decide in its reasonable discretion (<i>billiges Ermessen</i> as contemplated in § 315 of the German Civil Code (BGB)) whether this is the case; or</p> <p>(cc) in cases where no Equity Index Futures Exchange Adjustment occurs, but where such Equity Index Futures Exchange Adjustment would be required pursuant to the adjustment rules of the Futures Exchange; in such case, the Index Sponsor will decide in its reasonable discretion (<i>billiges Ermessen</i> as contemplated in § 315 of the German Civil Code (BGB)) whether this is the case and will make Equity Index Adjustments in accordance with the adjustment rules of the Futures Exchange.</p> <p>(ii) If there is any doubt regarding the application of the Equity Index Futures Exchange Adjustment or adjustment rules of the Futures Exchange or where no Futures Exchange exists, the Index Sponsor will make such adjustments to the Index which are required in its reasonable discretion (<i>billiges Ermessen</i> as contemplated in § 315 of the German Civil Code (BGB)) to preserve the economic profile of the Index prior to the occurrence of the Equity Index Extraordinary Event and</p>
--	--

to compensate for the economic effect thereof on the level of the relevant Equity Index.

- (b) Any reference made to the Equity Index and/or the Equity Index Sponsor (as defined below) in this description of the Index in this paragraph will, if the context so admits, refer to the replacement index and/or the index sponsor of the replacement index. All related definitions will be deemed to be amended accordingly as the context requires.
- (c) Equity Index Adjustments will take effect as from the date (the "Cut-off Date") determined by the Index Sponsor in its reasonable discretion (*billiges Ermessen* as contemplated in § 315 of the German Civil Code (BGB)), provided that (if the Index Sponsor takes into consideration the manner in which adjustments are or would be made by the relevant futures exchange) the Index Sponsor will take into consideration the date at which such adjustments take effect or would take effect at the relevant futures exchange.
- (d) Equity Index Adjustments as well as their Cut-off Dates will be made available by the Index Calculation Agent in accordance with the provisions relating to Index Publication.

For purposes of the above, "Equity Index Extraordinary Event" with respect to an Equity Index means:

- (a) the cancellation or replacement of the relevant Equity Index or the replacement of the Equity Index Sponsor by another person, company or institution not acceptable to the Index Sponsor and/or the Index Calculation Agent;
- (b) the termination, impairment, cessation or dispute of the license granted by the Equity Index Sponsor to the Index Sponsor and/or the Index Calculation Agent and/or any of their respective affiliates to use such relevant Equity Index in connection with the Index;
- (c) the adjustment of option or futures contracts relating to the relevant Equity Index or contained in the relevant Equity Index on the relevant Futures Exchange(s) or the announcement of such adjustment;
- (d) the termination of trading in, or early settlement

	<p>of, option or futures contracts relating to the relevant Equity Index or contained in the relevant Equity Index on the relevant Futures Exchange(s), or the announcement of such termination or early settlement;</p> <p>(e) a change in the currency in one or more components of the relevant Equity Index if such change has a material effect on the level of the relevant Equity Index. The Index Sponsor will decide in its reasonable discretion (<i>billiges Ermessen</i> as contemplated in § 315 of the German Civil Code (BGB)) whether this is the case;</p> <p>(f) the Equity Index Sponsor (i) ceases the calculation of the relevant Equity Index and/or materially or frequently delays the publication of the level of the relevant Equity Index or the relevant data for calculating the level of the relevant Equity Index and the Index Calculation Agent is not able to calculate the level of the relevant Equity Index without the relevant Equity Index Sponsor's information and/or (ii) if the relevant Equity Index Sponsor materially modifies its terms and conditions for the use of the relevant Equity Index and/or materially increases its fees for the use or calculation of the relevant Equity Index so that it is no longer economically reasonable to reference the relevant Equity Index. The Index Sponsor will decide in its reasonable discretion (<i>billiges Ermessen</i> as contemplated in § 315 of the German Civil Code (BGB)) whether this is the case; or</p> <p>(g) any other event being economically equivalent to the before-mentioned events with regard to their effects. The Index Sponsor will decide in its reasonable discretion (<i>billiges Ermessen</i> as contemplated in §315 of the German Civil Code (BGB)) whether this is the case.</p> <p>If the relevant Equity Index is no longer calculated and published by the Equity Index Sponsor but by another acceptable person, company or institution as the new Equity Index Sponsor (the "Successor Equity Index Sponsor"), the Index will be determined on the basis of such Equity Index being calculated and published by the Successor Equity Index Sponsor and any reference made to the Equity Index Sponsor in the above description of the Index will, if the context so admits, then refer to the Successor Equity Index Sponsor. The Index Sponsor will</p>
--	---

decide in its reasonable discretion (*billiges Ermessen* as contemplated in § 315 of the German Civil Code (BGB)) whether this is the case.

If an Equity Index Sponsor materially modifies the calculation method of an Equity Index with effect on or after the Index Commencement Date, or materially modifies such Equity Index in any other way (except for modifications which are contemplated in the calculation method of the Equity Index relating to a change with respect to any index components, the market capitalisation or with respect to any other routine measures, each an "Equity Index Modification"), then the Index Sponsor is entitled to continue the calculation and publication of such Equity Index on the basis of the former concept of the Equity Index and its last determined level. The Index Sponsor will decide in its reasonable discretion (*billiges Ermessen* as contemplated in § 315 of the German Civil Code (BGB)) whether an Equity Index Modification has occurred.

6. Changes in the Calculation of the Index

The Index Calculation Agent starts the calculation of the Index on the Index Commencement Date in compliance with the Index calculation method and the description of the Index in this paragraph. Although the Index Sponsor intends to apply this Index Description from the Index Commencement Date, it cannot be ruled out that tax, regulatory, statutory, economic or other circumstances might apply that, in the reasonable discretion (*billiges Ermessen* as contemplated in § 315 of the German Civil Code (BGB)) of the Index Sponsor, will necessitate changes with regard to this Index as described in this paragraph. In such a case, the Index Sponsor may in its reasonable discretion (*billiges Ermessen* as contemplated in § 315 of the German Civil Code (BGB)) deviate from, or perform changes to, this Index Description. Any deviations from this Index Description are subject to the proviso that the general concept and, thus, the investment objectives of the Index in particular are maintained. In the event of a change to the calculation method as detailed in this Index as described in this paragraph, the Index Calculation Agent will publish the relevant change in accordance with the provisions relating to the publication of the Index.

7. Corrections

If the Index Calculation Agent identifies an error or omission in any of its calculations or determinations in respect of the Index, then the Index Calculation Agent may, if practicable and if the Index Calculation Agent determines acting in good faith that such correction, error or omission (as the case may be) is material, adjust or correct the relevant calculation or determination and/or the Index Level as of any Index Calculation Date. The Index Calculation Agent will publish such correction in accordance with provisions regarding the publication of the Index.

8. Discontinuation of the Calculation of the Index

If, in the case of any circumstances that require any changes to the Index as described in the section 'Changes in the Calculation of the Index' of the Index rules, or, upon occurrence of an Equity Index Extraordinary Event, an Equity Index Adjustment is not be possible while retaining the general concept and, thus, the objectives pursued by the Index, the Index Calculation Agent will discontinue the calculation of the Index (the "Discontinuation of the Calculation of the Index"). The Index Calculation Agent will decide in its reasonable discretion (*billiges Ermessen* as contemplated in §315 of the German Civil Code (BGB)) whether this is the case.

9. Index Disclaimer and Conditions of Use

The Index Sponsor will obtain information for inclusion in, or for use in the calculation of, the Index from sources that the Index Sponsor considers reliable. However, the Index Sponsor accepts no responsibility for, and will have no liability for any errors, omissions or interruptions in respect of such sources or the information obtained there from. The Index Sponsor does not guarantee the accuracy and/or the completeness of the Index or any data included therein. The Index Sponsor makes no warranty, express or implied, as to the results to be obtained by any person or entity from the use of the Index or any data included therein. The Index Sponsor makes no express or implied warranties and expressly disclaims all conditions and warranties implied by statute, general law or custom with respect to the Index or any data included therein.

MSCI indexes (collectively, the "MSCI Indexes") were provided to the Index Sponsor on an "as is" basis. MSCI

Inc. ("MSCI") does not in any way sponsor, support, promote or endorse the Index which is based on the MSCI Indexes. MSCI was not and is not involved in any way in the creation, calculation, maintenance or review of the Index. MSCI is not the benchmark administrator for the Index. MSCI Inc., each of its affiliates and each other person involved in or related to compiling, computing or creating the MSCI Indexes (collectively, the "MSCI Parties") expressly disclaim all warranties (including, without limitation, any warranties of originality, accuracy, completeness, timeliness, non-infringement, merchantability and fitness for a particular purpose). Without limiting any of the foregoing, in no event will any MSCI Party have any liability for any direct, indirect, special, incidental, punitive, consequential (including, without limitation, lost profits) or any other damages in connection with the MSCI Indexes or the Index.

10. Index Risk Disclosures

INDEX DESCRIPTION LIMITATIONS

The performance of the Index is dependent on a pre-defined rules-based methodology. There is no assurance that other methodologies would not result in better performance than the methodology followed in respect of the Index.

UNDERPERFORMANCE RISK

The Index provides exposure to notional long positions in MSCI Factor Indices. The Index is constructed under the assumption that the MSCI Factor Indices will outperform the Benchmark Indices over the long term. It is a risk that these MSCI Factor Indices will not outperform the Benchmark Indices.

EFFECT OF INDEX FEES AND ADJUSTMENT FACTOR

The Index Level includes a deduction of a notional Index Fee and an Adjustment Factor. The Index Fee and the Adjustment Factor will ultimately serve to act as a drag on the Index Level and will reduce the return available (if any) under the Notes.

VOLATILITY TARGET

The exposure of the Index to the Core Index is adjusted, on a daily basis, in accordance with a formula which seeks to maintain an overall specified annualised volatility level for the Index Level of 15% (the "Volatility Target"). The

exposure is determined by reference to the recent volatility of the Core Index. Although the volatility of the Core Index and the exposure of the Index thereto are determined and adjusted daily, the actual volatility of the Index may be greater or less than the Volatility Target. As the Volatility Target is assessed daily, this can lead to a daily change in the exposure of the Index to the Core Index. Another frequency for determining this may have different results. The application of the Volatility Target is based on the historical exponential volatility of the Core Index. This means there may be a significant period of time before the Index reduces exposure to account for any increase in volatility. This could result in a lower level of the Index than would prevail if the exposure had been adjusted more quickly. The exposure of the Index to the Core Index is designed not to exceed 150% and, therefore, leverage may be applied to the Index, which will have a magnifying effect on the performance of the Index (whether positive or negative). During periods when the realised volatility of the Core Index is higher than the Volatility Target, particularly in bull markets, the volatility targeting mechanism may lead the Index to underperform relative to the Core Index and/or compared with indices that do not use such a mechanism. There can be no assurance that the volatility targeting mechanism used to construct the Index will be successful or that the Index will outperform the strategy or any alternative volatility adjusted index that might be constructed by reference to the Core Index.

CONCENTRATION RISK

The Index Constituents and therefore the Index is composed of stocks only. Therefore, the Index may be less diversified than an investment in any fund, investment portfolio or other product which invests in or tracks a diversified investment portfolio with exposure to multiple asset classes, and therefore could experience greater volatility.

FIXED ALGORITHMIC MODEL PARAMETERS

In common with all algorithmic strategies, the Index uses a rules-based methodology which contains fixed parameters. For example, the Index gives an equal weight to each MSCI Factor Index. The Index methodology assumes that these parameters and other fixed parameters are reasonable in the context of the Index. However, alternative parameters could have a positive effect on the performance of the Index.

	LIMITED OPERATING HISTORY
	The Index was launched by the Index Sponsor on a specified Index Launch Date and has been calculated by the Index Calculation Agent for the period from that Index Start Date. The Index Sponsor has published limited information about how the Index would have performed had it been calculated prior to the Index Launch Date. Due to the fact that the Index and its constituents was each created relatively recently, and limited historical performance data exist with respect to it, an investment in a product linked to the Index may involve a greater risk than an investment in a financial product linked to one or more indices with a more established record of performance. Furthermore, any back - testing or similar performance analysis performed by any person in respect of the Index must be considered illustrative only and may be based on estimates or assumptions not used by the Index Calculation Agent when determining the Index Level.
