<p>Hedging:</p>	<p>Hedging Party”) would incur a materially increased (as compared with circumstances existing on the Effective Date) amount of tax, duty, expenses, costs or fees (other than brokerage or commissions) to:</p> <ul style="list-style-type: none"> (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk (or any other relevant price risk, including, but not limited to, the currency risk) of entering into and performing its obligations with respect to the Notes or Hedge Positions in connection with the Notes, or (ii) realise, recover or remit the proceeds of Hedge Positions in connection with the Notes between accounts within the jurisdiction of the Hedge Positions (the “Affected Jurisdiction”) or from accounts within the Affected Jurisdiction to accounts outside the Affected Jurisdiction, <p>the Issuer may terminate the Notes early and the Calculation Agent will calculate the early termination amount to be paid to the Note Holder.</p>

Without limiting the obligation of the Calculation Agent to notify the Note Holders as set forth in the preceding sentence, failure by the Calculation Agent to notify the Note Holders of the occurrence of a Disrupted Day will not affect the validity of the occurrence.</p> <p>The consequences of a Disrupted Day are that the relevant Valuation Date will be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the eight Scheduled Trading Days immediately following the relevant scheduled Valuation</p>

	<p>Date is a Disrupted Day. In that case, (aa) that eighth Scheduled Trading Day will be deemed to be the relevant Valuation Date, notwithstanding the fact that such day is a Disrupted Day, and (bb) the Calculation Agent will determine the level of the Index as of the Index Valuation Time on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating the Index last in effect prior to the occurrence of the first Disrupted Day using the Index Component Exchange traded or quoted price as of the Index Valuation Time on that eighth Scheduled Trading Day of each Component Security (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant Component Security on that eighth Scheduled Trading Day, its good faith estimate of the value for the relevant Component Security as of the Index Valuation Time on that eighth Scheduled Trading Day).</p> <p>For purposes of the above, the following terms have the meanings assigned next to each such term:</p> <p>“Valuation Date” means each of the following dates: the Trade Date, the Index Valuation Date, the Maturity Date and an Exchange Business Day.</p> <p>“Market Disruption Event” means either:</p> <p>(i) (aa) the occurrence or existence, in respect of any Component Security, of:</p> <ol style="list-style-type: none">(1) a Trading Disruption in respect of such Component Security, which the Calculation Agent determines is material, at any time during the one hour period that ends at the relevant Index Valuation Time in respect of the Index Component Exchange on which such Component Security is principally traded;(2) a Trading Disruption in respect of such Component Security, which the Calculation Agent determines is material, at any time during the one hour period that ends at the relevant Index Valuation Time in respect of the Index Component Exchange on which
