3. Index Publication
The Index Calculation Agent retains the right to delay publication of the Index if it reasonably believes there are
circumstances that prevent the correct calculation of such
Index. The Index will be calculated by the Index
Calculation Agent and published on Bloomberg Calculation and publication of the Index in respect of each
Index Calculation Day t is expected to take place on the
Index Calculation Day following the relevant Index
Calculation Day t. In the event that the Index Value is
published by the Index Calculation Agent and is amended after it is initially published, the amended Index Value will
be considered the official fixing level and used in all
applicable calculations. In the event that the published
value of any Index Component or other Index input that could impact a calculation of the Index Value, is changed
or amended in respect of a time period prior to the day on
which the Index Value is being determined, the Index
Calculation Agent shall be under no obligation to

recalculate the Index Value or make any corresponding adjustment to the Index Value in order to take account of such change by altering the Index Value. The Index Calculation Agent, in consultation with the Index Committee, nonetheless, will have the discretion to make appropriate adjustments in good faith and in order to achieve a commercially reasonable outcome and (where there is a corresponding applicable regulatory obligation) shall take into account whether fair treatment is achieved by any such adjustment in accordance with its applicable regulatory obligations, in any particular situation, in light of the facts and circumstances of such situation. The Index may be replaced by a successor index.

# 4. Index Component Transaction Costs (and Adjustment Factor)

The Index Calculation Agent will charge Index Transaction costs at each Rebalancing event in accordance with the calculation methodology. For clarity, the transaction cost for the CS HOLT Equity Factor Global Multi-Factor USD Net Total Return Index is 0.05% and the transaction cost for the Credit Suisse 10-Year US Treasury Note Futures Index is 0.025%. In the same way, there is an Adjustment Factor deducted from the Index. For clarity, the annual Adjustment Factor will be 3.5%.

## 5. Changes in the Calculation of the Index

The Index from this Index Description are subject to the proviso that the general concept and, thus, the investment objectives of the Index in particular are maintained. In the event of a change to the calculation method as detailed in this Index as described in this paragraph, the Index Calculation Agent will publish the relevant change in accordance with the provisions relating to the publication of the Index.

## 6. Corrections

If the Index Calculation Agent identifies an error or omission in any of its calculations or determinations in respect of the Index, then the Index Calculation Agent may, if practicable and if the Index Calculation Agent determines acting in good faith that such correction, error or omission (as the case may be) is material, adjust or correct the relevant calculation or determination and/or the Index Level as of any Index Calculation Date. The Index Calculation Agent will publish such correction in accordance with provisions regarding the publication of the Index.

7. Amendment of the Index Rules; Index Component Substitution; Withdrawal of the Index
The Index Sponsor may in consultation with the Index
Committee, supplement, amend (in whole or in part),
revise, rebalance or withdraw the Index at any time if one
of the following occurs:
a) there is any event or circumstance that in the
determination of the Index Sponsor makes it impossible
or impracticable to calculate the Index pursuant to the
Index Rules;
b) a change to the Index Rules is required to address an
error, ambiguity or omission in the determination of the
Index Sponsor; or
c) the Index Sponsor determines that an Extraordinary
Event has occurred.
d) The Index Sponsor determines that an Index
Component Disruption Event has occurred.
A supplement, amendment, revision or rebalancing may
lead to a change in the way the Index is calculated or
constructed. Such changes may include, without
limitation, substitution of an Index Component, or
changes to the Index Strategy.
"Index Component Disruption Event" means any of an
Equity Index Disruption Event or a Commodity Index
Disruption Event
"Extraordinary Event" means any of the following events or circumstances:
a) change in either (i) the liquidity of any Index
Component (including the application of any gating, side-
pocketing or other similar arrangement), (ii) the form of
payment of a transaction linked to any Index Component,
or (iii) the trading volume, terms or listing of any Index
Component;
b) change in any applicable law or regulation, or any
decision or promulgation of any change in the
interpretation by any court, tribunal or regulatory
authority of any applicable law or regulation;
c) any event or circumstance that means the value of an
Index Component is, in the determination of the Index
Sponsor, unreliable;
d) an Index Component is permanently discontinued or
otherwise unavailable;
e) change in the method by which the value of an Index

Component is calculated;
f) any event that, in the determination of the Index Sponsor (and/or its affiliates), has a material adverse effect on the ability of a market participant to establish, maintain, value, rebalance or unwind a hedge position (which may include physical investments or entering into futures contracts or OTC derivatives) in relation to an investment product linked to the Index;
g) any other event which, either (i) in the determination of the Index Sponsor has a material adverse impact on the ability of the Index Calculation Agent, or Index Sponsor to perform its duties, or (ii) in the determination of the Index Sponsor, serves to frustrate or affect the purpose or aims of the Index Strategy (for example if the Index Sponsor determines at any time that there is a material risk of an Index Value becoming negative), or (iii) in the determination of the Index Sponsor, the overall notional amount of products linked to the Index falls to a size which renders the continuation of the Index economically unviable for the Index Sponsor.
which, in the case of each of (a) – (e) above, has or will have, as determined by the Index Sponsor in its discretion, a material effect either on the performance of the Index, or the ability of the Index Calculation Agent to calculate the value of the Index, or the ability of the Index to achieve the Index Strategy, or the ability of a hypothetical investor to replicate the Index.
Following any withdrawal of the Index as described above the Index Sponsor may, but is not obliged to do so, replace the Index with a successor index and/or replace the Strategy with a similar successor strategy or an entirely new strategy at any time, as it deems appropriate in its discretion.
8. Index Disclaimer and Conditions of Use
The Index Sponsor will obtain information for inclusion in, or for use in the calculation of, the Index from sources that the Index Sponsor considers reliable. However, the Index Sponsor accepts no responsibility for, and will have no liability for any errors, omissions or interruptions in respect of such sources or the information obtained there from. The Index Sponsor does not guarantee the accuracy and/or the completeness of the Index or any data included therein. The Index Sponsor makes no warranty, express or implied, as to the results to be obtained by any person or entity from the use of the Index or any data

included therein. The Index Sponsor makes no express or implied warranties and expressly disclaims all conditions and warranties implied by statute, general law or custom with respect to the Index or any data included therein.

#### Index Disclaimer

This disclaimer extends to Credit Suisse International ("CS"), its affiliates or designates in any of its capacities. CS is the sponsor of the Index (the "Index Sponsor"). The Index Sponsor also acts as the administrator of the Index for the purposes of the Benchmark Regulation (Regulation (EU) 2016/1011) (the "BMR") (the "Index Administrator"). The Index Rules are published by CS. CS is authorised by the Prudential Regulation Authority ("PRA") and regulated by the Financial Conduct Authority ("FCA") and the PRA. Notwithstanding that CS is so regulated, the rules of neither the FCA nor the PRA are incorporated into this document. The Index Administrator and Index Calculation Agent are part of the same group. CS or its affiliates may also offer securities or other financial products ("Investment Products") the return of which is linked to the performance of the Index. CS or its affiliates may, therefore, in each of its capacities face a conflict in its obligations carrying out such role with investors in the Investment Products. In addition, the Index Rules are not to be used or considered as an offer or solicitation to buy or subscribe for such Investment Products nor is it to be considered to be or to contain any advice or a recommendation with respect to such products. Before making an investment decision in relation to such products one should refer to the prospectus or other disclosure document relating to such products. The Index Rules are published for information purposes only and CS and its affiliates expressly disclaim (to the fullest extent permitted by applicable law and regulation except for where loss caused by the Fault of CS or its affiliates) all warranties (express, statutory or implied) regarding this document and the Index, including but not limited to all warranties of merchantability, fitness for a particular purpose of use and all warranties arising from course of performance, course of dealing or usage of trade and their equivalents under applicable laws of any jurisdiction unless losses result from the breach of such warranties where such losses are caused by the Fault of CS or its affiliates. "Fault" means negligence, fraud or wilful default. CSi is described as Index Administrator, Index Sponsor and Index Calculation Agent under the Index Rules. CSi may transfer or delegate to another entity, at

its discretion and in compliance with applicable law and regulation, some or all of the functions and calculations associated with the role of Index Administrator, Index Sponsor and Index Calculation Agent respectively under the Index Rules. Such a supplement, amendment, revision or withdrawal may lead to a change in the way an Index is calculated or constructed and may affect such Index in other ways. CS as Index Administrator is the final authority on the Index and the interpretation and application of the Index Rules. CS as Index Administrator may supplement, amend (in whole or in part), revise or terminate these Index Rules in compliance with applicable law and regulation at any time. The Index Rules may change without prior notice. CS will apply the Rules in its discretion acting in good faith and in a commercially reasonable manner and (where there is a corresponding applicable regulatory obligation) shall act independently and honestly in its capacity as the Index Administrator and take into account 22 whether fair treatment is achieved by any such calculation, determination and exercise of discretion in accordance with its applicable regulatory obligations, and in doing so may rely upon other sources of market information. Neither CS as Index Administrator nor CS as Index Calculation Agent warrants or guarantees the accuracy or timeliness of calculations of Index values or the availability of an Index value on any particular date or at any particular time. Neither CS nor any of its affiliates (including their respective officers, employees and delegates) shall be under any liability to any party on account of any loss suffered by such party (however such loss may have been incurred) in connection with anything done, determined, interpreted, amended or selected (or omitted to be done, determined or selected) by it in connection with the Index and the Index Rules, unless such loss is caused by CS or any of its affiliates' Fault. Without prejudice to the generality of the foregoing and unless caused by CS or any of its affiliates' Fault, neither CS nor any of its affiliates shall be liable for any loss suffered by any party as a result of any determination, calculation, interpretation, amendment or selection it makes (or fails to make) in relation to the construction or the valuation of the Index and the application of the Index Rules and, once made, neither CS nor any of its affiliates shall be under any obligation to revise any calculation, determination, amendment, interpretation and selection made by it for any reason. Neither CS nor any of its affiliates makes any warranty or representation whatsoever, express or implied, as to the results to be

obtained from the use of the Index, or as to the performance and/or the value thereof at any time (past, present or future). The strategy underlying the Index (the "Index Strategy") is a proprietary strategy of the Index Administrator. The Index Strategy is subject to change at any time by the Index Administrator but subject to consultation with the Index Committee or otherwise as required by applicable law and regulations. Neither CS nor its affiliates shall be under any liability to any party on account of any loss suffered by such party, unless such loss is caused by CS's Fault in connection with any change in any such strategy, or determination or omission in respect of such strategy. Neither CS nor any of its affiliates is under any obligation to monitor whether or not an Index Disruption Event has occurred and shall not be liable for any losses unless caused by CS's Fault resulting from (i) any determination that an Index Disruption Event has occurred or has not occurred, (ii) the timing relating to the determination that an Index Disruption Event has occurred or (iii) any actions taken or not taken by CS or any of its affiliates as a result of such determination. Unless otherwise specified, CS shall make all calculations, determinations, amendments, interpretations and selections in respect of the Index. Neither CS nor any of its affiliates (including their respective officers, employees and delegates) shall have any responsibility for good faith errors or omissions in its calculations, determinations, amendments, interpretations and selections as provided in the Index Rules unless caused by CS's ' Fault. The calculations, determinations, amendments, interpretations and selections of CS shall be made by it in accordance with the Index Rules, acting in good faith and in a commercially reasonable manner and (where there is a corresponding applicable regulatory obligation) shall take into account whether fair treatment is achieved by any such calculation, determination, amendment, interpretation and selections in accordance with its applicable regulatory obligations (having regard in each case to the criteria stipulated herein and (where relevant) on the basis of 23 information provided to or obtained by employees or officers of CS responsible for making the relevant calculations, determinations, amendments, interpretations and selections). For the avoidance of doubt, any calculations or determinations made by CS under the Index Rules on an estimated basis may not be revised following the making of such calculation or determination. The Stock Calculation Agent is a third party entity that is not affiliated with CS. CS does not have influence over any of the Stock Calculation Agent's exercise of discretion in respect of any Index Components which are ETFs (including, but not limited to, adjustments following corporate actions). Further information on the principles and methodology employed by the Stock Calculation Agent can be found in the Stock Calculation Agent's Corporate Actions Policy and the Stock Calculation Agent Methodology. No person may reproduce or disseminate the Index Rules, any Index Value and any other information contained in this document without the prior written consent of CS or its affiliates (where applicable). The Index Rules are not intended for distribution to, or use by any person in a jurisdiction where such distribution or use is prohibited by law or regulation. No one other than CS or its affiliates (where applicable) is permitted to use the Index Rules or any Index Value in connection with the writing, trading, marketing, or promotion of any financial instruments or products or to create any indices. These disclaimers are subject to mandatory provisions of applicable law and regulation which apply to the Index Administrator or the Index Calculation Agent and nothing in these disclaimers shall exclude or limit liability to the extent such exclusion or limitation is not permitted by such law or regulation. Save for the foregoing these disclaimers shall apply to the fullest extent permitted by applicable law and regulation. The Index Administrator may make any change or modification to the Index and/or the Index Rules which may be necessary or desirable for the purposes of ensuring compliance by the Index Administrator with its obligations under the BMR and any successor or additional benchmarks legislation or regulation applicable in the United Kingdom. The Index Rules shall be governed by and construed in accordance with English law. ## INDEX DESCRIPTION LIMITATIONS

The performance of the Index is dependent on a predefined rules-based methodology. There is no assurance that other methodologies would not result in better performance than the methodology followed in respect of

the Index.
UNDERPERFORMANCE RISK
The Index provides exposure to notional long positions in Credit Suisse Indices. The Index is constructed under the assumption that the Credit Suisse Indices will outperform the Benchmark Indices over the long term. It is a risk that these Credit Suisse Indices will not outperform the Benchmark Indices.
EFFECT OF INDEX FEES AND ADJUSTMENT FACTOR
The Index Level includes a deduction of a notional Index Fee and an Adjustment Factor. The Index Fee and the Adjustment Factor will ultimately serve to act as a drag on the Index Level and will reduce the return available (if any) under the Notes.
VOLATILITY TARGET
The exposure of the Index to the Core Index is adjusted, on a daily basis, in accordance with a formula which seeks to maintain an overall specified annualised volatility level for the Index Level of 10% (the "Volatility Target"). The exposure is determined by reference to the recent volatility of the Core Index. Although the volatility of the Core Index and the exposure of the Index thereto are determined and adjusted daily, the actual volatility of the Index may be greater or less than the Volatility Target. As the Volatility Target is assessed daily, this can lead to a daily change in the exposure of the Index to the Core Index. Another frequency for determining this may have different results. The application of the Volatility Target is based on the historical exponential volatility of the Core Index. This means there may be a significant period of time before the Index reduces exposure to account for any increase in volatility. This could result in a lower level of the Index than would prevail if the exposure had been adjusted more quickly. The exposure of the Index to the Core Index is designed not to exceed 150% and, therefore, leverage may be applied to the Index, which will have a magnifying effect on the performance of the Index (whether positive or negative). During periods when the realised volatility of the Core Index is higher than the Volatility Target, particularly in bull markets, the volatility targeting mechanism may lead the Index to underperform
relative to the Core Index and/or compared with indices that do not use such a mechanism. There can be no assurance that the volatility targeting mechanism used to
construct the Index will be successful or that the Index will

	outperform the strategy or any alternative volatility adjusted index that might be constructed by reference to the Core Index. CONCENTRATION RISK The Index Constituents and therefore the Index is composed of stocks only. Therefore, the Index may be less diversified than an investment in any fund, investment portfolio or other product which invests in or tracks a diversified investment portfolio with exposure to multiple asset classes, and therefore could experience greater volatility. FIXED ALGORITHMIC MODEL PARAMETERS In common with all algorithmic strategies, the Index uses a rules-based methodology which contains fixed parameters. The Index methodology assumes that these parameters and other fixed parameters are reasonable in the context of the Index. However, alternative parameters could have a positive effect on the performance of the Index.
	LIMITED OPERATING HISTORY
	The Index was launched by the Index Sponsor on a specified Index Launch Date and has been calculated by the Index Calculation Agent for the period from that Index Start Date. The Index Sponsor has published limited information about how the Index would have performed had it been calculated prior to the Index Launch Date. Due to the fact that the Index and its constituents was each created relatively recently, and limited historical performance data exist with respect to it, an investment in a product linked to the Index may involve a greater risk than an investment in a financial product linked to one or more indices with a more established record of performance analysis performed by any person in respect of the Index must be considered illustrative only and may be based on estimates or assumptions not used by the Index Calculation Agent when determining the Index Level. The index sponsor has provided ABSA Bank Ltd authority to use the index. Any changes to the index methodology will be published on SENS and communicated to the JSE.
